

# ZombieVerter VCU Built

**Brand:** EVBMW

**Product Code:** zom\_v1\_built

**Availability:** In Stock

**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

**Price: 750.00€**

**Ex Tax: 750.00€**

## Short Description

ZombieVerter VCU V1.

Designed to provide an all-in-one vehicle control unit for EV conversion projects.

Fully configurable via WiFi using the Openinverter ecosystem.

All parts fitted including header as pictured.

Enclosure, connector and pins supplied.

No soldering required!

Bench tested on a drivetrain prior to dispatch

This device controls an ever growing list of drivetrains, chargers and accessories via CAN/Serial interfaces.

Most recently added CCS DC Fast Charge via the BMW i3 LIM module! and Chademo via internal CAN

Price includes worldwide tracked postage.

Fully open source project.

Support via the [openinverter.org](https://openinverter.org) forum.

<https://openinverter.org/forum/viewtopic.php?f=3&t=1696>

Software and resources available on Github:

<https://github.com/damienmaguire/Stm32-vcu>

Note the software is in development as of 09/2022

Testing in my E46 Touring conversion :

<https://vimeo.com/565240929>

Delivery : up to 4 weeks from order.

No tax or other surcharges.
